DETAILED ACTION

1. The supplemental reply filed on 12/8/2006 was not entered because supplemental replies are not entered as a matter of right except as provided in 37 CFR 1.111(a)(2)(ii). The response does not clearly put the application in condition for allowance because substantial new consideration of the amended claims, amended specification, declaration under 37 CFR 1.132, and arguments would be required.

Claim Rejections - 35 USC § 112

2. Claims 1-83 and 87-95 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention for the reasons set forth in item 2 of the Office action mailed 6/28/2006.

Applicant's arguments filed 9/27/2006 have been fully considered but they are not persuasive. Regarding the use of "least square best fit," there is nothing on the record indicating that this particular algorithm is to be used to determine "m". Furthermore, applicants' response appears to be relying on a different calculation method for the determination of "m" from that taught in the specification as filed, and the two methods give substantially different results. For example, in Example 149, the calculation of m by direct solution gives a spread values from 1.3 to 2.1, depending on conditions, whereas by best fit the results of numerous samples are reduced to a single value of 1.4. Accordingly, applicants' response has served to add further ambiguity to

Art Unit: 1713

the manner in which m is to be calculated for the purpose of determining the scope of the claims. Regarding the distinction between mole ratio and mole percent, applicants' argument does not resolve the issue because the two are not equivalent, and the proper quantity must be identified for proper calculation of m .

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
